image not found or type unknown

image not found or type unknown

Program

```
pipeline {
  agent any
  stages {
    stage('Notify Telegram') {
      steps {
        script {
          def chatId = "-1002146311706"
          def token = "7150149831:AAEHaf4637njRm5wYoCUd_YTHjaMfxlJA6l"
          def message = "Jenkins Alert! : $BUILD_ENV IN $DEPLOY_REGION "

          // Windows curl command using bat
          bat """
          echo "Building in environment: $BUILD_ENV"
```

```
echo "Deploying: $DEPLOY_REGION"
curl -s -X POST "https://api.telegram.org/bot${token}/sendMessage" ^
  -d chat_id="${chatId}" ^
  -d text="${message}"
""
}
}
}
}
}
```

After creating the job in post build step
