image1622085940389.png

Follow the instruction to create a bot.

image1622086015197.png

Use this token ID and update the tbl_application table in SSO on the respective Telegramchatbot field.

Update Member Chat ID and Company Chat ID

To update member chat ID in the member table of the application.

Click below link to get the member chat ID and update the number in member table of the respective application thru screen or database update.

https://telegram.me/cid_bot

To start receive message from the respective application member have to first accept the bot in to their contacts else member will not receive message from the bot. this is for security reason when working with bot.

For example if user wish to receive message from basket then click following link and click **start**
